What you receive when you adopt a Suwanee Goldendoodle puppy:

Our dogs and any litter we produce are hand-raised with lots of love inside our home. They are well socialized to the outside world and are included in daily activities around the yard and home so that they are acclimated to the normal life they will go home to. When the puppies are 6 weeks old we will start matching puppies with their families and their individual "wish list", according to the order in which deposits are received. The litter selection will be a collaboration between the families and breeders. Often times, the puppy actually "picks" his/her family.

What your puppy will have when he/she goes home:

1. At least one set of puppy shots.
2. Wormings appropriate for age, 2,4,6,8 weeks.
3. Veterinary certified health certificate and health care record.
4. Microchipping: Suwanee Goldendoodles puppies are microchipped by our Vet at 8 weeks. It is up to the discretion of the licensed vet that is handling the microchipping as to what chip is used. This is not mandatory and if you request that your dog not be chipped, we will see that they are not. If you elect to chip your puppy, you will receive the registration papers and number that is associated with your puppy and it is your responsibility to obtain the registration and pay for the renewal fees. This service provides recovery of lost animals through a database of ownership.
5. Enough puppy food we have used as a diet for the first week. The current food fed by Suwanee Goldendoodles is recommended, and if changed, it should be within the guidelines of premium dog foods (a comprehensive list is maintained on our website). Maintaining your puppy diet is important and as a breeder maintaining the same diet as our dogs at home keeps you well informed of any issues or possible recalls in the product.

The links below are to a continually updated list of pet food recalls:

<http://www.fda.gov/oc/opacom/hottopics/petfood.html>

6. Goody bag of toys and an article or toy with Mom's scent.
7. Pedigree of your dog's ancestors.
8. Health warranty and contract.
9. Life-time support from Suwanee Goldendoodles. <http://www.suwaneegoldendoodles.com>. You can contact us with any questions any time and of course with lots of photos.

Our Promise to You:

We guarantee that our Goldendoodle breeding stock are free of life-threatening genetic disorders and have been tested for the following: Hip and elbow displasia, progressive retinal atrophy, VWB, and heart disease. We will fully guarantee this until your puppy reaches two years of age. We also guarantee for a period of 72 hours that the puppy is free of disease and is in good health. We require the purchaser to have the puppy vet checked within 3 days upon receiving the puppy in order to make this part of our guarantee valid.

Though we do our best to only breed healthy dogs that have tested clear of these problems (HD, VWD, PRA), an occasional genetic problem can randomly occur, much in the way that Diabetes or Downs Syndrome can occur in people within our immediate family. We certainly do not expect this to surface, but sometimes the unforeseen happens. If such a thing happens to your puppy, we will either (at our discretion) refund up to the original purchase price of the dog (if said dog is returned) and replace with another puppy. We may offer to pay vet costs up to original purchase price of the dog if the breeder and owner agree. We also reserve the right, at the breeder's expense, to have the dog checked by a vet of our choice before offering a replacement puppy or refunding any costs that have been incurred. We also require all testing been done on said dog be given for evaluation.

Your Promise to Us:

You will provide the dog with a loving and caring home and, to the best of your ability, keep the dog safe and ensure good health.

You agree not to allow the dog to get overweight or to unduly stress the puppy's developing body with excessive strenuous exercise in the first year of life.

We require that you take your puppy and you, to puppy obedience classes by the time your he/she is six months of age.

We recommend that you discuss an appropriate vaccination and health check up schedule with your veterinarian. You will be provided with vaccination guidelines to follow and if you choose not to vaccinate your puppy, that is your choice and responsibility. In this situation, we will not be held liable or responsible in any way if one of our puppies contracts a communicable disease after leaving our home. Proof of vaccinations must be provided if any health problems surface and must have been done 6 weeks prior to any diagnosis.

Before this guarantee is used, we require veterinary documentation of the problem and all pertinent reports, x-rays, etc to be send to our vet for consultation. We may also require a second veterinary opinion from a second vet of our choice (at our cost). In the case of HD the buyer must provide documentation form OFA or Penn Hip. In the case of cataracts or PRA the buyer must provide documentation from a licensed veterinary ophthalmologist.

We retain the right to cancel this guarantee if the dog is not in good condition or looks to have been mistreated in any way.

This agreement is void if the dog is bred. You agree to have the dog spayed or neutered by the time the dog is 6- 8 months of age. We do not do early spaying and neutering on our puppies because we feel it is important to the developmental stages of our puppies. All costs involved in spaying or neutering is your responsibility.

This agreement is also void if the dog is not on a diet that is approved by your veterinarian. Many health problems in dogs can be contributed to or caused by imbalanced or inadequate nutrition or (unknown to many people) a diet too high or low in protein or from being overfed. We require that you discuss and follow the recommendations of your vet regarding amounts and brands of food that you are feeding your puppy.

You agree to contact the Breeder immediately if you can no longer look after the dog at any point during the dog's life. We will assist in re-homing the dog to a family that has met Suwanee Goldendoodle criteria.

I have read and agreed to the terms and conditions above.
